

Best Doctors is the largest continuous peer-to-peer survey of the medical profession ever conducted. Targeted surveys help to identify specialists who are considered by fellow physicians to be the most skilled in their fields and most qualified for reviewing and treating complex medical conditions. The polling process is anonymous and confidential, qualitative and quantitative.

Best Doctors is totally independent. Doctors do not pay to be included in the database, nor are they paid to participate in the survey. The judgment of peers is the determining factor.

Best Doctors in SoCal

Up to 1.5 million evaluations are collected annually. Only 5% of the doctors in the country are actually selected for inclusion.

The result? An unparalleled "Doctors of Excellence" network unmatched in the industry today. What could be more reassuring than having access to the doctors that other doctors choose?

Here's to your health!
